

## LACTATION ROOM

MAIN  
FLOOR

ADMINISTRATIVE  
BUILDING

The Administrative Building has a new lactation room for mothers who choose to express breast milk, while at work. This private space will include a small refrigerator that is available for breast milk storage.

The room will be a designated space for lactation and will remain locked at all times. A key to the room will be kept in Human Resources. Employees will need to use the sign-in/sign out sheet when using the room. Supervisors and employees will work together to establish mutually convenient times for milk expression.

For questions, please contact Ali Ellison at 864-598-7055.
