1 This sheet must be used for tracing plats of tracts of the lands abstracted in the chain of title. Place this sheet over the plat to be traced so that the same will appear as nearly in the center of the sheet as possible. Then trace all lines, courses and distances. Always show adjoining landowners and indicate the point of the compass. Also copy all legends or explanatory notes, showing the date, surveyor, purpose of the same and whom for.

2 If the plat is too large to be traced on this sheet, make the tracing first on Sheet Q 1, and then reduce it on Sheet Q in the following manner: Assume that a certain corner on the tracing on Sheet Q 1 lies within Block HG. Refer to Sheet Q and locate this corner in the corresponding Block HG. The next corner on Sheet Q 1 lies within Block 91. Refer to Sheet Q and locate this corner in the corresponding Block 91. Draw a line connecting these two points as the corresponding points on Sheet Q 1 are connected. So proceed around the perimeter of the plat of land as traced on Sheet Q 1, locating the corresponding corners on Sheet Q, and connecting the various corners so located until the point of departure is reached.

3 This sheet must be inserted in the abstract at its proper place, which is immediately following the instrument or proceedings which refers to the plat, of which this is a copy.
